Joining the Club

- Come by the rink during club ice time to sign up and join.
- For more info about the club, including the date Johnson rink opens in fall 2009:

<http://web.mit.edu/skatingclub/www/Home.html>

Theater on Ice

MIT has its very own Theater on Ice team. TOI combines the grace of figure skating with the excitement of theater and dance. The club offers TOI coaching and opportunities for performing and competing. This past year, MIT's TOI team placed first at a competition in NYC.

Intercollegiate Competitions

Members of the MIT skating club can choose to participate in any or all of the four competitions we attend during the season.

Annual Exhibition

All members of the club are invited to skate in the annual exhibition held in March.

Exhibition features solo skaters, pairs, Theater on Ice, group numbers, and ice dancers across a wide range of abilities and experience.

USFSA Testing

- The club hosts one to two test sessions each season at the MIT rink
- Many of the skaters choose to take advantage of these test sessions, testing their freestyle, ice dance, and moves in the field skills
